Dear Mono County Board of Supervisors,

I am writing in support of Mammoth Lakes Housing's (MLH) request for funding for Access Apartments. Along with being a board member of MLH, I am an appreciative owner of a deed restricted condo in Mammoth Lakes. I am also an employee at Mammoth Mountain whose seasonal co-workers are always stressing about finding housing.

We need to add more workforce housing to help our community members. Building expenses continue to rise and have created a funding gap for Access Apartments. I am proud of MLH for their varied and creative ways to help fund this project, but it is time to complete Access Apartments and get heads in beds. Your financial support will mean a lot to potential residents of Access Apartments who are looking for safe and stable housing.

Thank you for your commitment to helping add workforce housing units in Mono County.

Sincerely,
Lindsay Barksdale
