Enclosure: Director Review Application
check 03384991

Dear Mr. Cross,

In an email dated August 9, 2018 to William Taylor with Granite Construction, you directed him to submit a Director Review application for a minor modification to the Reclamation Plan for Granite's 120 E Pit. Enclosed with this letter is that Director Review Application with pertinent information filled in. Since the project design has not changed, no new plot plans were included with the application.

Application requests the following changes to Reclamation Plan 34-99-01, which was adopted on Feb. 16, 1999:

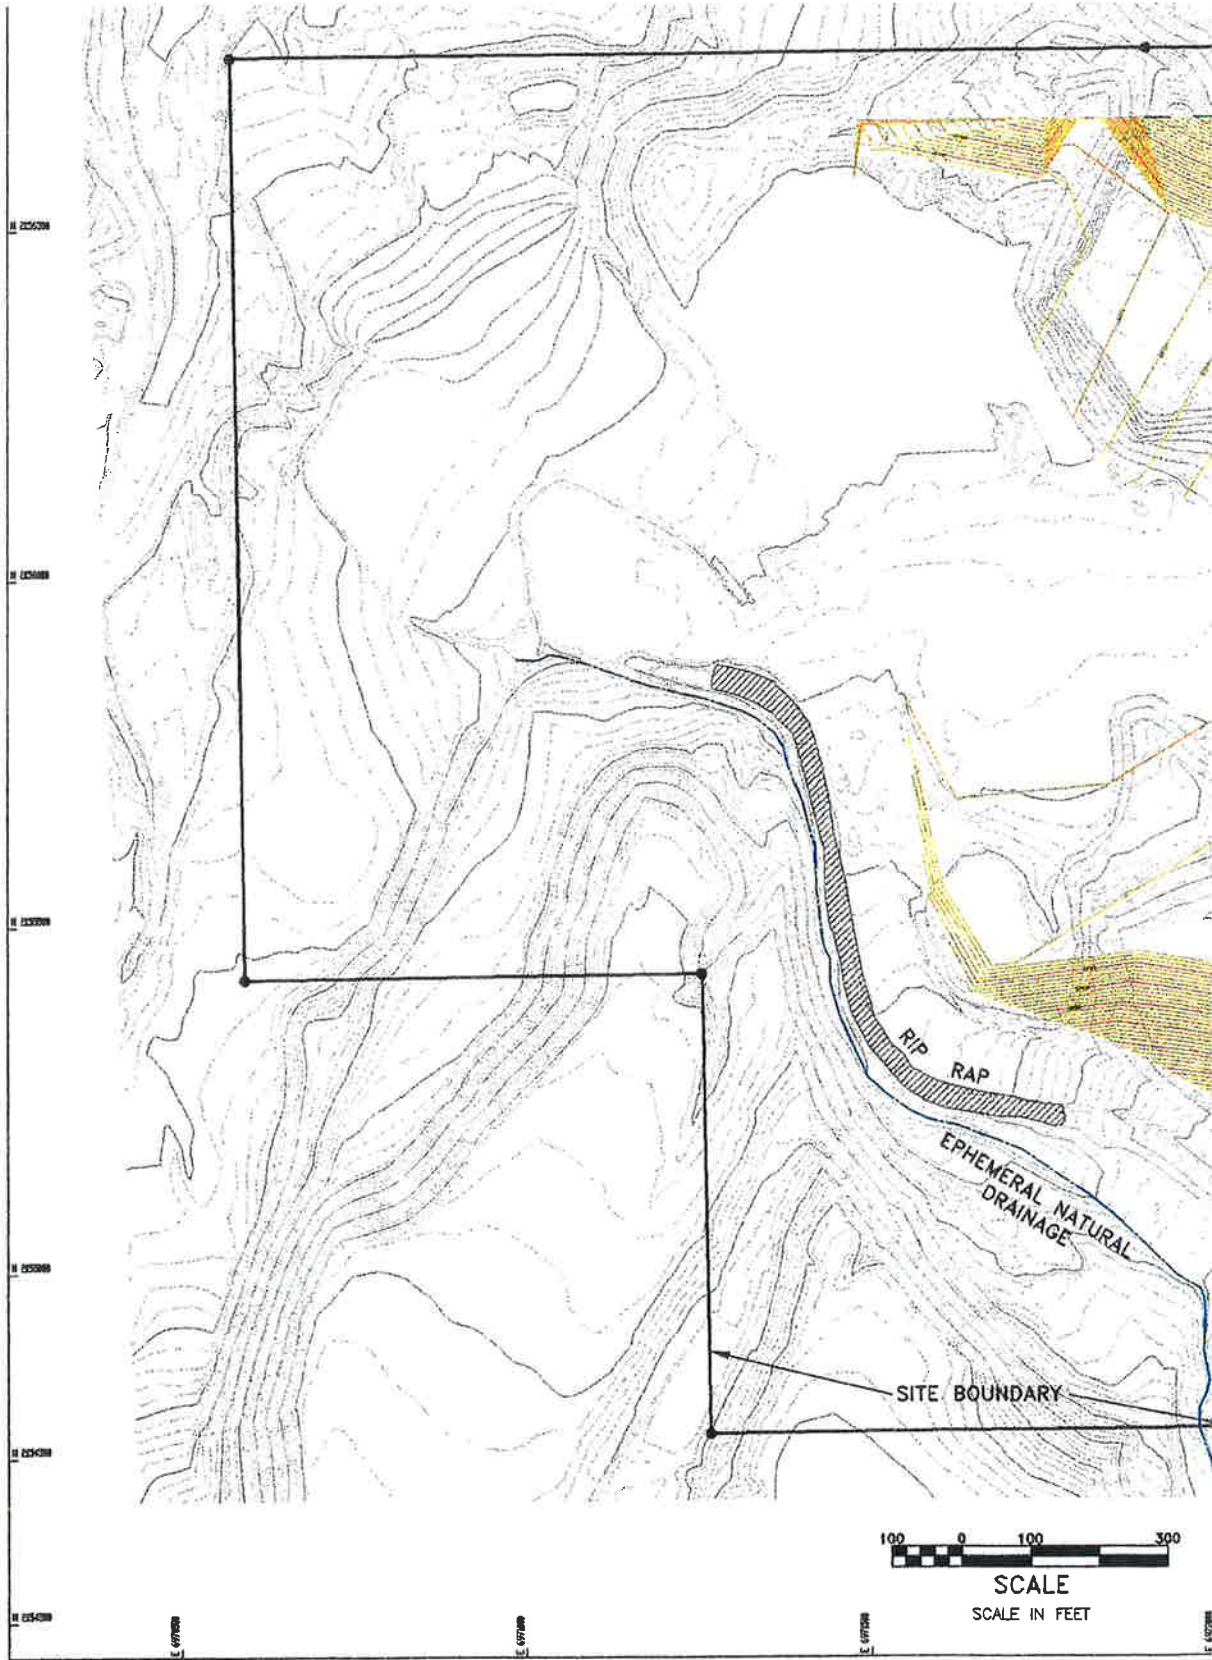

1. Section 3.1.0 GENERAL DESCRIPTION, revise proposed termination date of the operation to 2073.
2. Section 3.4.0 TOPSOIL HANDLING be revised to remove the sentence "Topsoil and growth media will be stockpiled within the mined out area, below the line of site from Highways 120 and 395.", and;
3. Section 3.5.0 OVERBURDEN HANDLING be revised to remove the sentence "Overburden will be stockpiled in mined out areas below the line of site of Highways 120 and 395."

Should you require any additional information, please feel free to contact me.

Sincerely,

Tim Findley, Plant Engineer

Granite Construction Company
